Worksheet no. 11

The evaluation criteria and their meaning are presented below. Your task is to connect the criteria with their proper meaning.

Accuracy	assessment of the extent to which the project's objectives, defined at the programming stage, will be/have been achieved
Efficiency	the degree of satisfaction of the beneficiaries' needs as a result of achieving the results of the undertaken operations
Effectiveness	Is it possible to maintain the impact of this project in the long term?
Utility	the degree to which the adopted project objectives correspond to the identified problems in the area covered by the project tem
Durability	assessment of the level of "economics" of the project

Worksheet no. 12

You and a group of neighbors established a community garden in the estate, which is to be used for growing vegetables and flowers, meetings and integration, educational activities and cultural events.

You are going to conduct an ex-post evaluation, so in your group, develop questions based on the evaluation criteria used in this type of evaluation (2 questions to one criterion) and two indicators for each evaluation question.

Worksheet no. 13

You and a group of neighbors set up a common composter in the Family Allotment Gardens.

You are going to conduct an ex-post evaluation, so in your group, develop questions based on the evaluation criteria used in this type of evaluation (2 questions to one criterion) and two indicators for each evaluation question.

Worksheet no. 14

Together with other residents of the district, you planted a flower meadow in a local park, established a community orchard and established apiaries for bees.

You are going to conduct an ex-post evaluation, so in your group, develop questions based on the evaluation criteria used in this type of evaluation (2 questions to one criterion) and two indicators for each evaluation question.

Worksheet no. 15

Together with a group of local neighbors, you established an educational garden in the common square and installed birdhouses.

You are going to conduct an ex-post evaluation, so in your group, develop questions based on the evaluation criteria used in this type of evaluation (2 questions to one criterion) and two indicators for each evaluation question.
